

Application 20/00630 – 99 Ditton Road, Datchet Datchet parish council has objections and comments for consideration by the planning officers to this application on the following points:

1. The proposed extension to the side and rear leaves an area of land between the back of the existing garage and the proposed rear extension cutting off a section of land with no access and appears to create free land within the proposed site.
2. The proposed extension leaves no access for maintenance to the rear of the property.
3. We request that the Borough call in the Arboricultural Officer for a review of the site and inspection of established trees.
