

**Application 20/00278–147 Horton Road, Datchet.** Datchet parish council would like to raise an **objection** to this application on the following points:

1. There appears to be no neighbour notifications appearing on this application and we would refer to give adjacent properties a chance to comment.
2. Health and safety: the proposed application shows rear left side doors opening out onto the pavement where people could be walking or socialising on the pavement
3. Noise and visual concerns over the side sliding doors to neighbouring properties on the street from the business.
4. The side elevation is continuous down the side of the building and concerns are raised as to the harmony and symmetry of the property
