APPLICATIONS RECEIVED			
Application No / Type	Application Site	Proposal	DNP COMMENTS
26/00044 Full	14 Eton Road, Datchet, SL3 9AY	New front entrance canopy, new roof to 2no. front bay windows, part single storey, part two storey side/rear extension, raising of the eaves and ridge to provide habitable accommodation within the roofspace, 3no. front and 3no. rear dormers and alterations to the external finish and fenestration (Part Retrospective)	<p>Objection this property is subject to ongoing enforcement action for not adhering to the application plans. The developer has deliberately extended beyond and changed the the plans and now asks for retrospective approval. We are against this mercenary approach from the developer who has breached every regulation during this development. We have received dozens of complaints over the development period from noise after hours to obstruction and abusive behavior or just basic overdevelopment on the approved plans. On this basis the parish council object.</p> <p>DAT 2, DAT 8, DAT 10, are applicable. The application form just refers to materials for the walls, windows and roofs. The information submitted with this application includes lots of additional material, including details of the outbuildings refused permission in 25/03177. The FRA is dated 2023 and does not include the outbuildings and hard standing at the rear. There is an outstanding enforcement investigation re hardstanding in rear garden. The Car storage document shows another site entirely, not in Datchet. The dormer windows do not follow the plans, they should be set partially in the front wall, partially in the roof. As they are now completely set in the roof, it's not clear whether the pitch of the roof is as shallow as it should have been. There are no chimneys as per the approved plans, instead there is a structure with access door on the roof. The railings on the roof have not been restored and replaced, they are new and the wrong size, not as shown on the plans. There</p>

			is also a window in the side elevation which should have no windows. The side extension closest to Slough Road looks as if it extends closer to the boundary than shown on the plans. (There are probably other items which don't match the plans but it's difficult to see behind the hoarding.)
